

CHI

## MONITORING

With CHI Monitoring, a client is able to work, study, and maintain family connections. They live at home while being monitored for compliance with their court ordered electronic sentence.

CHI has monitored over 300 offenders and provided over 22,000 days of monitoring since 2007. The financial savings to the taxpayers has been significant. CHI has saved the taxpayers over \$2,816,000, based upon the California Legislative Analyst's Office ([www.lao.ca.gov](http://www.lao.ca.gov)). Value to the client/offender/defendant is priceless.

CHI is affordable alternative sentencing for yourself, family, friends, and associates. Let us help you or others to continue working, studying and being with the family.

Monday - Friday from 9:00 AM to 5:00 PM.
